1. The disclosure is objected to because of the following informalities: At the top of page 1, applicant claims priority from a provisional application of serial number 60/241,148. However, this appears to be in error as PALM shows this serial number to be a case which is unrelated to the instant. Applicant is requested to check on this and provide the appropriate correction in the specification and oath should such be necessary.

Appropriate correction is required.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
